(Paris) We call upon the Turks to turn against the Russians who have shown their true intentions by moving to the Black Sea. France is quite willing to aid Turkey in the conquest and defence of Rome, and peace along our present borders thereafter, if she will only attack Russia.

(Berlin) See you next war, you _____

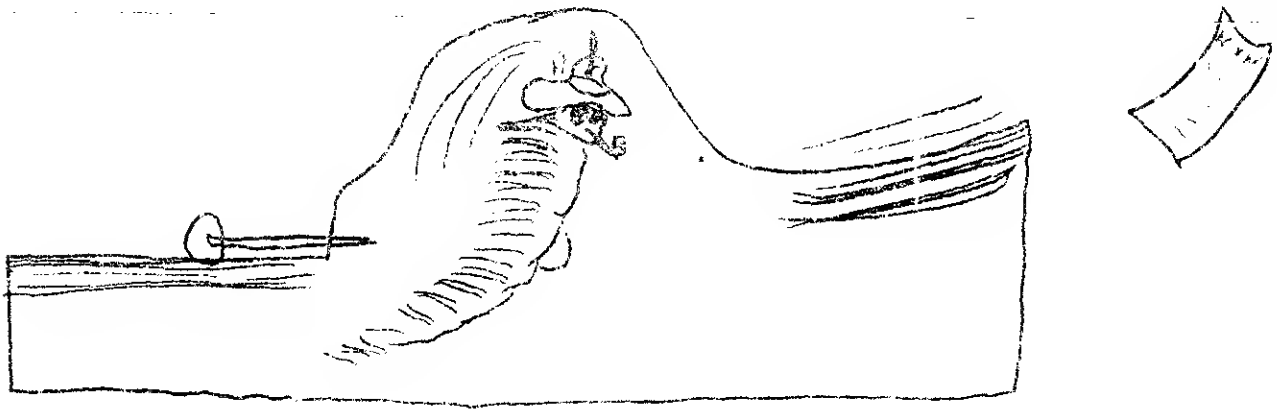
Over the phone, Jimmy Dygert said, "What do you mean!! I talked you into trusting Nelson? YOU'RE the one who talked ME into trusting Nelson!!"

Jimmy Dygert is moving to Texas (Houston) which seems fitting, somehow. :Hey! Who's getting that Walking Dream-House in Walnut Creek?? Sure wish we could swing a half-million down payment. . .

Why somebody doesn't draw up a game board where everybody can play? There are still only about a hundred people in postal Diplomacy. Starting with 3 supply centers each, that would be 300 Home supply centers, plus about 100 neutral supply centers, plus about 400 non-supply provinces, makes a total of only 800 land areas. It could be done. You'd need a publishing staff like Don Miller's tho. I don't think I could handle the game. To draw the map, you would need about 6 Capt. Walkers, or else different parts of it could be drawn separately by different people, here and there about the country.


Due to the many long delays in our publishing, both Wild 'n Wooly and KAIMAR have positions open for replacement players.
